APARTADO No. 59

N. Casas Grandes, Chih.

November 28, 1956.-

Mr. Maurice W. Nittler
Box 94
Geneva, Nebraska

Dear Gentleman:-

I have on hand your nice report of the morning of the 19th. We were on the air that night, testing our 1000 Watt transmitter after having done a few minor repairs, - as we are only on the air daily 'til 9:00 O'clock P. M.-----

Our Transmitter is of Gates Make and we have besides an RCA 250 Watt Auxiliary one, which also works daily after sun-down, -to closing hours, which is 9:00 O'clock and began at 7: A.M.

We are located at a latitud of 30°-21'-55" degrees north and 107°-58'-42" degrees west longitud.- We use a 76.5 Mts. vertical antenna made of water pipe line beguining at the bottom with a 6 inch pipe and ending with a 2 inch, with a heavy and special porcelain base tested for a 10,000 Watt spark-jump.-

Casas Grandes is a small town of about 20,000 population and is our Galeana's county ~~sitt~~ seat.- We have a great lumber industry and hevay cattle grazing with a considerable farming.- We raise Wheat, alfalfa, Corn, Beans and cotton.- There are three great flour mills in town and we have a large meat-packing plant which exports meat to U. S. and Europe.-

There is a small town north of Here ~~whiich~~ is called DUBLAN 90% of it's residents are american people engaged in farming and cattle grazing, -and mikk by-products, such as Cheese, butter and etc.-

Our Station is located in-between Casas and Dublan, these two towns are about one mile apart and we there-fore are 1/2 mile from either one.- We have our Studios, offices, Announcers cabin and transmitters, in same building and our antenna is near-by.- We own our property and building.- We have been on the air since 1949.-

Hoping that I have made things ~~litle~~ clearer ~~of~~ our city, Radio-Station an etc. I beg to remain.- Yours very truly-

Laureano F. Molinar Jr. - (Sole Owner of XETX.)
