Mr. Maurice W. Nittle
Box 94
Geneva, Nebraska

Dear Sir:

We realize that we are somewhat late in replying to your request for verification of reception of our station during the hurricane "Ione", however your letter was placed aside during the need for necessary work to equipment and we have to admit "Forgotten".

However, we are pleased to verify your reception during that time and wish to thank you for the nice letter. We will place it in our files along with many others we treasure.

Our thanks to you for this report.

Sincerely,

Herman Civils
