

1000 Watts
1340 KC's

Grafton, North Dakota

Dear Sir;

KGPC ran a frequency test--Dec 12 at 1:30-1:45.CST

Thank you for your letter. KGPC has a daytime power of 1,000 watts and nighttime power of 250 watts. We are located in some of the best ground (conductivity is high) in the nation. We serve the Red River Valley in North Dakota, Minnesota and up into Canada. Our frequency test is run the second Sunday of each month.

Thanks again for your letter.

Sincerely,

Walter Ter Meer

Chief Engineer,

The **MIGHTY** Voice of the Rich Red River Valley
