"THE VOICE OF AGRICULTURE"

LANGDON, N. DAK. 58249
December 20, 1967

Mr. Bill Nittler
P.O. Box 112
Englewood, Colorado 80110

Dear Mr. Nittler,

Thanks much for your letter reporting your reception of KNDK on November 13 from 3:02 to 3:45 AM CST.

I'm sorry that I haven't answered before this, but we've been in the process of moving into our newly built studios and it seems that I haven't had time to do much other than regular maintenance on the equipment.

We were on the air the morning of November 13 from 3:00 to 4:00 AM CST for the purpose of a frequency and equipment check and comparing your reception report to our logs, it is correct.

We received eighteen reception reports as a result of this test, the farthest in distance being from Vallejo, California

KNDK is a 1000 watt non-directional daytime station and for being just a kilowatter, we have a tremendous coverage area. Our programming is mainly MOR with some C&W.

Once again, thanks for writing and if you have any further questions or comments, feel free to write and I'll try to be a little quicker on the answering end of things than I have been this time.

Sincerely yours,

John V. Anderson
Chief Engineer
KNDK Radio
Langdon, North Dakota
