Bill:

Thanks for writing concerning our radio station KQLX.  
Yes indeed, it was our station at 890khz that you were receiving  
on Sunday January 6th. I remember the notations you made well  
as I was the air personality you heard on that day.  
Concerning the frequency, we were originally scheduled to have  
720khz as ours but a last minute FCC decision switched it to 890  
which you may recognize as the same frequency as WLS in Chicago.  
KQLX went on air officially on November 19, 1984.  
Thanks again for writing.

Sincerely,

A handwritten signature in blue ink that reads 'Michael D. Ray'.

Michael D. Ray  
General Manager  
Program Director  
KQLX-AM

P.S. By the way, all the notes you jotted down were absolutely  
correct. Your system must be top notch!
