Mr. Nittler:

It certainly is a pleasure for me to sit down and drop you a note informing you that we appreciate receiving letters like yours. At times this is a very trying business, and letters like yours make our burden a bit lighter.

Yes, that was our programming that you received the morning of the 13th. This is encouraging to me, as I have a brother living in Denver, and he has been trying to make contact with our station for quite some time now, and without success.

Hoping to hear from you again soon. I remain very truly yours,

Jim Zim
