# KECK radio

TELEPHONE (402)-489-6575 / P. O. BOX 6006 / LINCOLN, NEBRASKA 68506

---

Just a quick note to thank you for your report. Apparently we get out quite well to the west on skywave, since we have had several reports from points west that we wouldn't expect to hit, considering our groundwave contours.

Was interested to hear that you came from Nebraska. I am a student at the U of N here in Lincoln, and sure wish I could come to Colo for the big game you were talking about. I always enjoy any chance to go to Colo, the country out there is great!

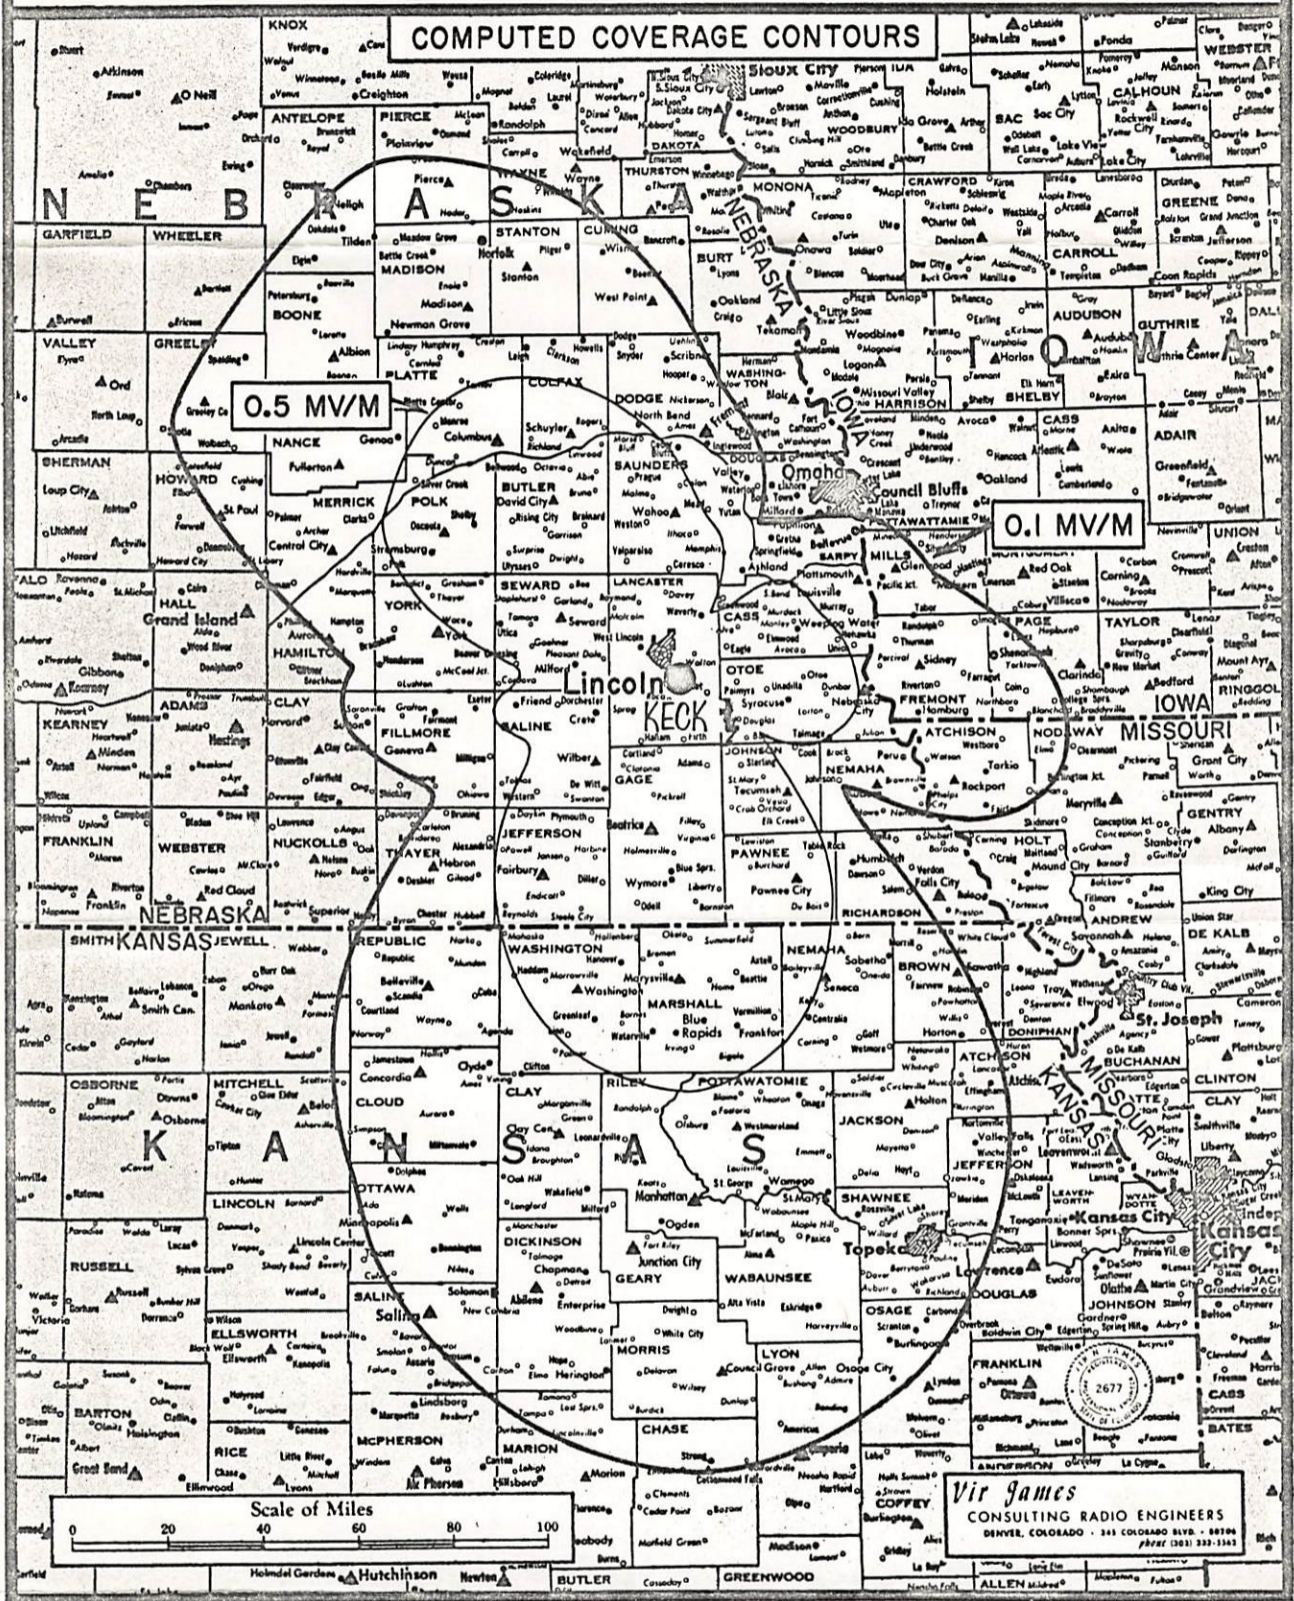

Best of luck with your DXing!

Joe
