Dear Maurice,

December 15, 1964

I would first of all like to appoliage for the late reply in answering your letter. We are just now getting out from under our work and installing our FM. KICS has only been on the air since April.

KICS uses a Collins 20V-3AM Transmitter and we have freq checks each month the third Tuesday of that Month.

We have a Sunday morning religious program with a family from Geneva, they are new there so I don't know whether you would know them or not. They are the Inmans, and also run a furniture store in Clay Center.

As you, we also are looking forward to hearing from you again. I am writing this letter for the engineer, my name is Jim Roberts and my family lives at 2300 South Adams St. in Denver, so I feel close to you.

Thank you again for your letter and we remain,
Sincerely yours,

R C LUTH jr
Chief Engineer
