A Strong Voice for a Strong People  
1230 On Your Dial

July 30, 1957

Maurice W. Nittler  
Geneva, Nebraska

Mr. Nittler:

We here at KTNC were very glad to receive your letter of July 26th reporting your reception of our equipment test.

We wish that our station could serve you and your community all the time, but due to our lack of power (only 100 watts) our signal will not reach you very well. We have been trying to get on the air permanently for about a month but because of difficulty with our teletype we have been unable to do so. As you may know the teletype is the backbone of the radio station and without it we would be at a great loss. We do hope to be on the air permanently in about a week and trust you will keep listening for us.

We also have another station in Independence Mo. and a newspaper and printing shop there. Between the two we shall cover a large area. Enclosed is one of our coverage maps so that you can see how much we do cover.

Again I would like to thank you for your letter and at any time again drop us a line or if you are ever in this area, come in and see us. The studios are located on the second floor of the Stephenson Hotel here in Falls City.

Sincerely yours,

*Ray S. McKim Jr.*
