Hi Maurice:

Nice to hear from you again; and very happy to verify another reception report from you.

Our logs indicate that we can verify your reception of "Candy-KNDE-Radio", from 12:55 to 1:00 AM, September 21, 1959.

We make a monthly F/C with Beer, in Denver. However--until the middle of October, we were making them once a week, and it is one of these broadcasts that you heard.

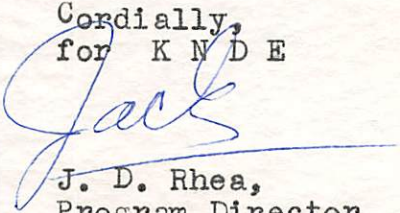

I note that you visit Cortez from time to time, and hope the next time you're down this way, you'll come around by Aztec--and at least let me buy you a cup of coffee.

Incidentally, heard from Francis - on one of our earlier tests... and am finally getting around to writing him, too. Putting a new one on keeps you going.

Hope that you remember me; was with KIOX in Bay City, Texas, for several years. Used to DX back in my hometown - Springfield, Missouri, in the late 40's, and early '50's...was very active in NRC and NNRC.

Again, thanks for the report; drop by sometime. Would enjoy meeting you.

Cordially,  
for K N D E
