January 9, 1954

Mr. Maurice W. Nittler  
Shickley, Nebraska.

Dear sir;

Thank you for your card of January 4th informing us that you heard us on our frequency test on the morning of January 4th at 2:00 A.M., CST or 1:00 A.M., MST according to our time here. We operate this test once a month for a 15 minute period at the time given and in the future, it may be conducted on the last Sunday night of the month (Monday A.M. of course.)

It has been interesting to hear from men like yourself as to the outreach of our 250 watt transmitter, realizing that we are in a rather crowded spot on the dial.

If I can ever be of any help to you in this respect, feel free to call on me, also thanks for the return postage.

Very truly yours,

  
Transmitter engineer-KOAT
