

KSVA – 610 AM

LIFETALK RADIO

Worship & The Word

September 28, 1999

Dear Bill,

Thank you so much for your letter. Sorry that it has taken us so long to reply to your letter. It became lost for a while and was recently discovered. Our station LifeTalk 610 AM is a 5,000 Watt AM signal which must change signal directions each night and that is why you have so much trouble picking up our signal in the evenings.

Helping people find a relaxing place to get away from the world's hectic pace while offering an avenue for our listeners to contemplate on God's peace providing grace is what LifeTalk 610 AM is dedicated to provide. Keep us in your prayers and share the news of our new station with your friends and family. Don't forget that our dedicated staff is always there and wants to pray with you regarding your special needs and we love to hear stories of Christian victory. Your stories and letter are very encouraging to our staff and help us to know that we are making a difference. Please write us or call us with your prayer requests toll free at 1 (888) 951-5782 or FAX us at (505) 890-0808.

Yours in Christ,

Terry Carlson
General Manager
