Maurice W. Nittler
1755 So. Vallejo St.
Denver 23, Colorado

Dear Maurice:

This is in answer of your letter concerning the reception of K-S-Y-X Radio on the date of April 6th. 1962.

Confirming the fact that K-6 Radio was on the air for test purposes between the hours of 1:22 AM and 1:35 AM MST.

We were modulating with a 1,000 cycle tone and the text of the station ID message read:

" Radio K-S-Y-X in Santa Rosa, New Mexico on the air for test purposes only modulating with a 1,000 cycle tone on a frequency of 1420 Kc. with a power output of 1,000 Watts"

I thank you for taking the time and trouble of letting us know of your reception of our signal in Denver. If I can be of any help to you in the future feel free to write.

Sincerely yours,

James A. Hatt
