

FEBRUARY 19, 1987

Mr. Bill Nittler
PO Box 824
Mancos, CO 81328

Dear Bill:

Thank you for your letter received this date regarding dx reception of KVEG.

We have since about 1982 been 5,000 watts day and night. Non-directional daytime and directional to the north and south at night.

I have enclosed our pattern for night, as well as a new bumper sticker.

Our call letters, are KFMS-AM/FM. We simulcast 100% 24 hrs per day.

We often receive dx reports from areas of Colorado, as well as Europe.

Thank you for the reception report, at 250 watts non-directional in 1979 that's quite a distance.

73's

Very Best Regards,

A handwritten signature in blue ink that reads "Dan G. Peluso".
