Mr. Nittler:

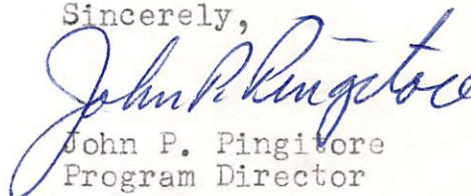

RE: request for verification of reception of August 28, 1961.

WAFS was purchased by Tele-Measurements of New York City in April, 1964. Our records prior to that time are incomplete. However, according to the program details which you outlined it would seem that the station you heard was WAFS.

WAFS is a daytime station, broadcasting from sunrise to sunset throughout the year. Therefore, our sign-on time would have been 6 AM during the month of August, as your reported.

We hope this has been of some help to you. Looking forward to hearing from you again after you hear us.

Sincerely,

John P. Pingitore
