Mr. Bill Nittler
P.O. Box 724
Meeker, Colorado 81641

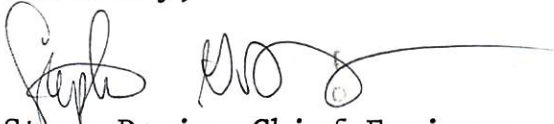

Dear Mr. Nittler:

Sorry we did not reply to your DX report sooner -- I never received the first letter you referred to. Our engineering department has on file a number of letters received from hobbyists such as yourself, and we appreciate your efforts and interest.

This confirms your reception of our station, KBBJ-AM, on September 17, 1983. We operate at 5,000 watts DA-Day, and 1,000 watts DA-Night. I am indeed surprised that you were able to pick us up. I hope that this is an unusual occurrence, though, since KVOR is one of the stations our directional array is configured to protect.

Once again, my apologies for the tardiness of this reply, and best wishes to you in the future.

Sincerely,

Steve Davis, Chief Engineer
Radio Stations KBBJ & KMOD-FM
