Maurice Nittler  
2818 So. Cherokee  
Englewood, Colo.

Greetings Maurice,

We want to thank you for reporting reception of KSPI on it's special DX test for the NRC. So far we have received some 25 reports with only one not correct.

This will serve to verify your reception of KSPI from 0305 to 0313 CST on 12-16-57 while KSPI was broadcasting it's DX. Your report is completely correct.

KSPI operates with a power of 250 watts non-directional from sunrise to sunset, local time. Our tower is 325' and is of the self-supporting type. We use a Western Electric transmitter.

Again I want to thank you and if we can be of any further service, please let us know.

Sincerely,

*Bus Boatman*  
*John Bryant*  
DX Arrangers
