Bill Nittler
Box 724
Meeker, Colorado

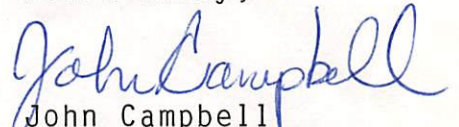

Dear Mr. Nittler:

The slogans and programmes you mention are indeed those of our Station, in Sault Ste. Marie, Ontario, Canada.

I'm sorry your original letter to us was not answered. I trust this is the verification you seek. We broadcast at 1050 Khtz, on the AM Band, with 50,000 watts daytime, and 5,000 watts nighttime. We are normally heard, on high power for a radius of 60 to 70 miles in nearly a circular pattern out of transmission facilities on flat land on the East side of Sault Ste. Marie.

We use a "HARRIS" (American) transmitter.

Yours truly,

per 
John Campbell
