Dear Mr Nittler,

Here is your verification of your receiving WEZN Radio
on January 2, 1962 at 3:25 Eastern Standard Time.

We are a daylight station operating on 1600 KC with
500 watts from a two tower directional antenna.

As far as I know, you have given us the best signal
report we have had to date. At the time, our antenna
farm was covered with five inches of old snow. The roads
were icy, and maybe that is why we got out so far.

Enclosed is our coverage map.

Thank you for your interest.

Yours truly,

Michael S. Rice
