Bill Nittler

McCook, Nebraska

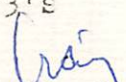

Dear Bill:

I'm happy to verify your report of our test on January 26.

The test was conducted using a 1946 G.E. xmtr and a 200 foot NON-D antenna on an island 500 feet out in the Seekonk River. (we use a boat)

Don't know if Skip mentioned it or not, but I may have a test coming up on WSYB 1380, Rutland, Vermont. It'll be posted in the club bulletins if it comes through. Here's hoping!
