LA VOZ DE

LOS ANDES

February 7, 1962

Mr. Maurice W. Nittler  
1755 So. Vallejo St.  
Denver 23, Colorado

Dear Mr. Nittler:

Thank you very much for your reception report of our special DX broadcast on 700 kc. I have checked your report with the log of this broadcast and there is no question but what you heard HCJB. Naturally, with WLW on the same frequency we did not expect anyone to get very good reception but have been pleased with the number of reports that have come to us.

Enclosed you will find your verification card confirming your reception of HCJB on 700 kc. We trust this will be a valuable addition to your collection of verification cards.

It was a real pleasure for us to present this program at the request of the National Radio Club. We trust you will be able to listen to HCJB on our short wave frequencies from time to time and I'm sure the reception will be much better there.

Sincerely yours,

A handwritten signature in cursive script that reads "Clayton Howard".
