Denver 23, Colorado

Dear Maurice,

In reply to your letter, I checked our program log and it matches perfectly with yours in your letter.

I must say that you were exceptionally lucky in receiving our signal. With another station right under your nose on the same frequency, it was an exceptionally commendable feat.

I would like to wish you the best possible luck in the future with your work in the National Radio Club.

If you ever, by some strange coincidence, manage to pick us up again, let us know about it.

Here's wishing you the best possible luck in the future.

Yours very truly,

Ken Allison
Program Director
