Colorado

Dear Sir:

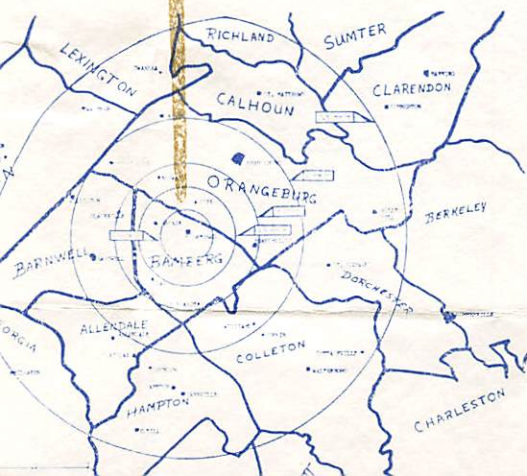

We received your report of reception of WWBD this morning and appreciate the trouble that you took to listen and write to us. The items that you logged on our signal were correct, and we are very glad that you and other members of the National Radio Club were able to receive us. As of now, only one other report has been received here at the station, and that was received from Dallas John, of Lombard Illinois. We hope that other members of the NRC will write to us and report reception of our test, but, of course, that remains to be seen.

Once again, thanks very much for reporting your reception of WWBD. Good luck to you too!

Sincerely,

Doug Keel
WWBD
