Mr. Maurice W. Nittler  
4590 So. Julian  
Englewood, Colo. 80110

Dear Maurice,

I am happy to confirm your DX report dated February 8, 1964. KUSD did broadcast the material that you described.

You are right about us being on 920kc in the early 1950's. In 1952 we built a two tower directional antenna system, changed our frequency to 690kc, and increased our power to 1 kw. Before that time we were on 920kc with a 500 watt composite transmitter and a long wire antenna.

Thank you for your report.

Sincerely,  
*Jim Prusha*
