Mr. Maurice W. Nittler,
Box 94,
Nebraska, U.S.A.

Dear Mr. Nittler:

Our January 23rd DX broadcast for the NRC was the first one of its kind ever made. I will let you be the judge of whether it was successful or not.

Following is a list of the points from which favorable reports were received.

Ponca City, Oklahoma	Estacada, Oregon
Spokane, Washington	Issaquah, Washington
Crystal Beach, Ont.	Geneva, Nebraska (your own)
Oklahoma City, Oklahoma	San Fransisco, California
San Diego, California	Mendota, Illinois
Brooklyn, New York	Proctorville, Ohio
Denver, Colorado (brother Francis)	Lincoln, Nebraska
Dubuque, Iowa	Paxton, Illinois

Most reports indicated that tone testers were on during part or most of our transmission. If you should consider our broadcast a failure or that some club members could pick us up better at some future time, don't hesitate to let us know and we will put on another broadcast at your convenience.

Also, if you wish more information regarding our January 23rd broadcast, just drop me a line.

Yours truly,

Marc Riou,
Chief Engineer,
RADIO GRAVELBOURG LTEE.

MR/jf.

*P.S. Sent letter to above address and it came back.
(no wonder) Sorry for the delay. MR.*
