November 22, 1954.

Mr. Maurice W. Nittler,
Box 94,
Geneva, Nebraska.

Dear Mr. Nittler:

Many thanks for your letter on the reception of our signal on November 14, 1954. We normally sign off at 12 p.m., but at certain times of the year we carry an amateur show on Saturday night from different towns around Yorkton, in support of a T.B. campaign, and we sometimes run until early in the morning as in this case.

This letter will verify your reception of our signal on November 14, 1954 from 12:45 p.m. November 13 to 1:30 a.m. November 14, 1954.

Once again many thanks for your letter.

Yours truly,

H.F. McRae,
Chief Engineer.
