RON SMITH,
RADIO STATION C J N B,
NORTH BATTLEFORD,
CANADA.

Mr. Maurice W. Nittler,
Box 94,
Geneva Nebraska.

Dear Sir:

Your letter was very warmly received. It is always nice to hear from listeners and especially so when it is from a distant point. Also a letter coming from the U. S. A. is the type of gesture there should be more of, as with inter-country relations such as yours, the possibility of further world wars becomes remote.

I figure you will probably be interested in some information about our North Battleford and so here goes.

As you probably can see by the map, we are very far north of you. (In the land of weather that in winter ranges from twenty-five above to FIFTY below.) The population of our fair city is in the vicinity of ten thousand and we are located in the heart of the most famous hunting and fishing grounds of all Canada. Hundreds upon hundreds of American hunters come yearly to this area and the Americans and Canadians from throughout the Dominion that come here to do sport fishing are too great in number to even hazard a guess at their total number. Wheat growing is the main source of revenue although we have about two million cattle in our province. We have a very outstanding hockey team in our area and each summer (import) have a professional baseball team.

Curling is a favorite winter sport here in Canada and our local curling rink is second to none anywhere. It possesses an artificial ice plant which enables us to bring in ice capade shows in the middle of August when the temperature is quite likely to be in the nineties.

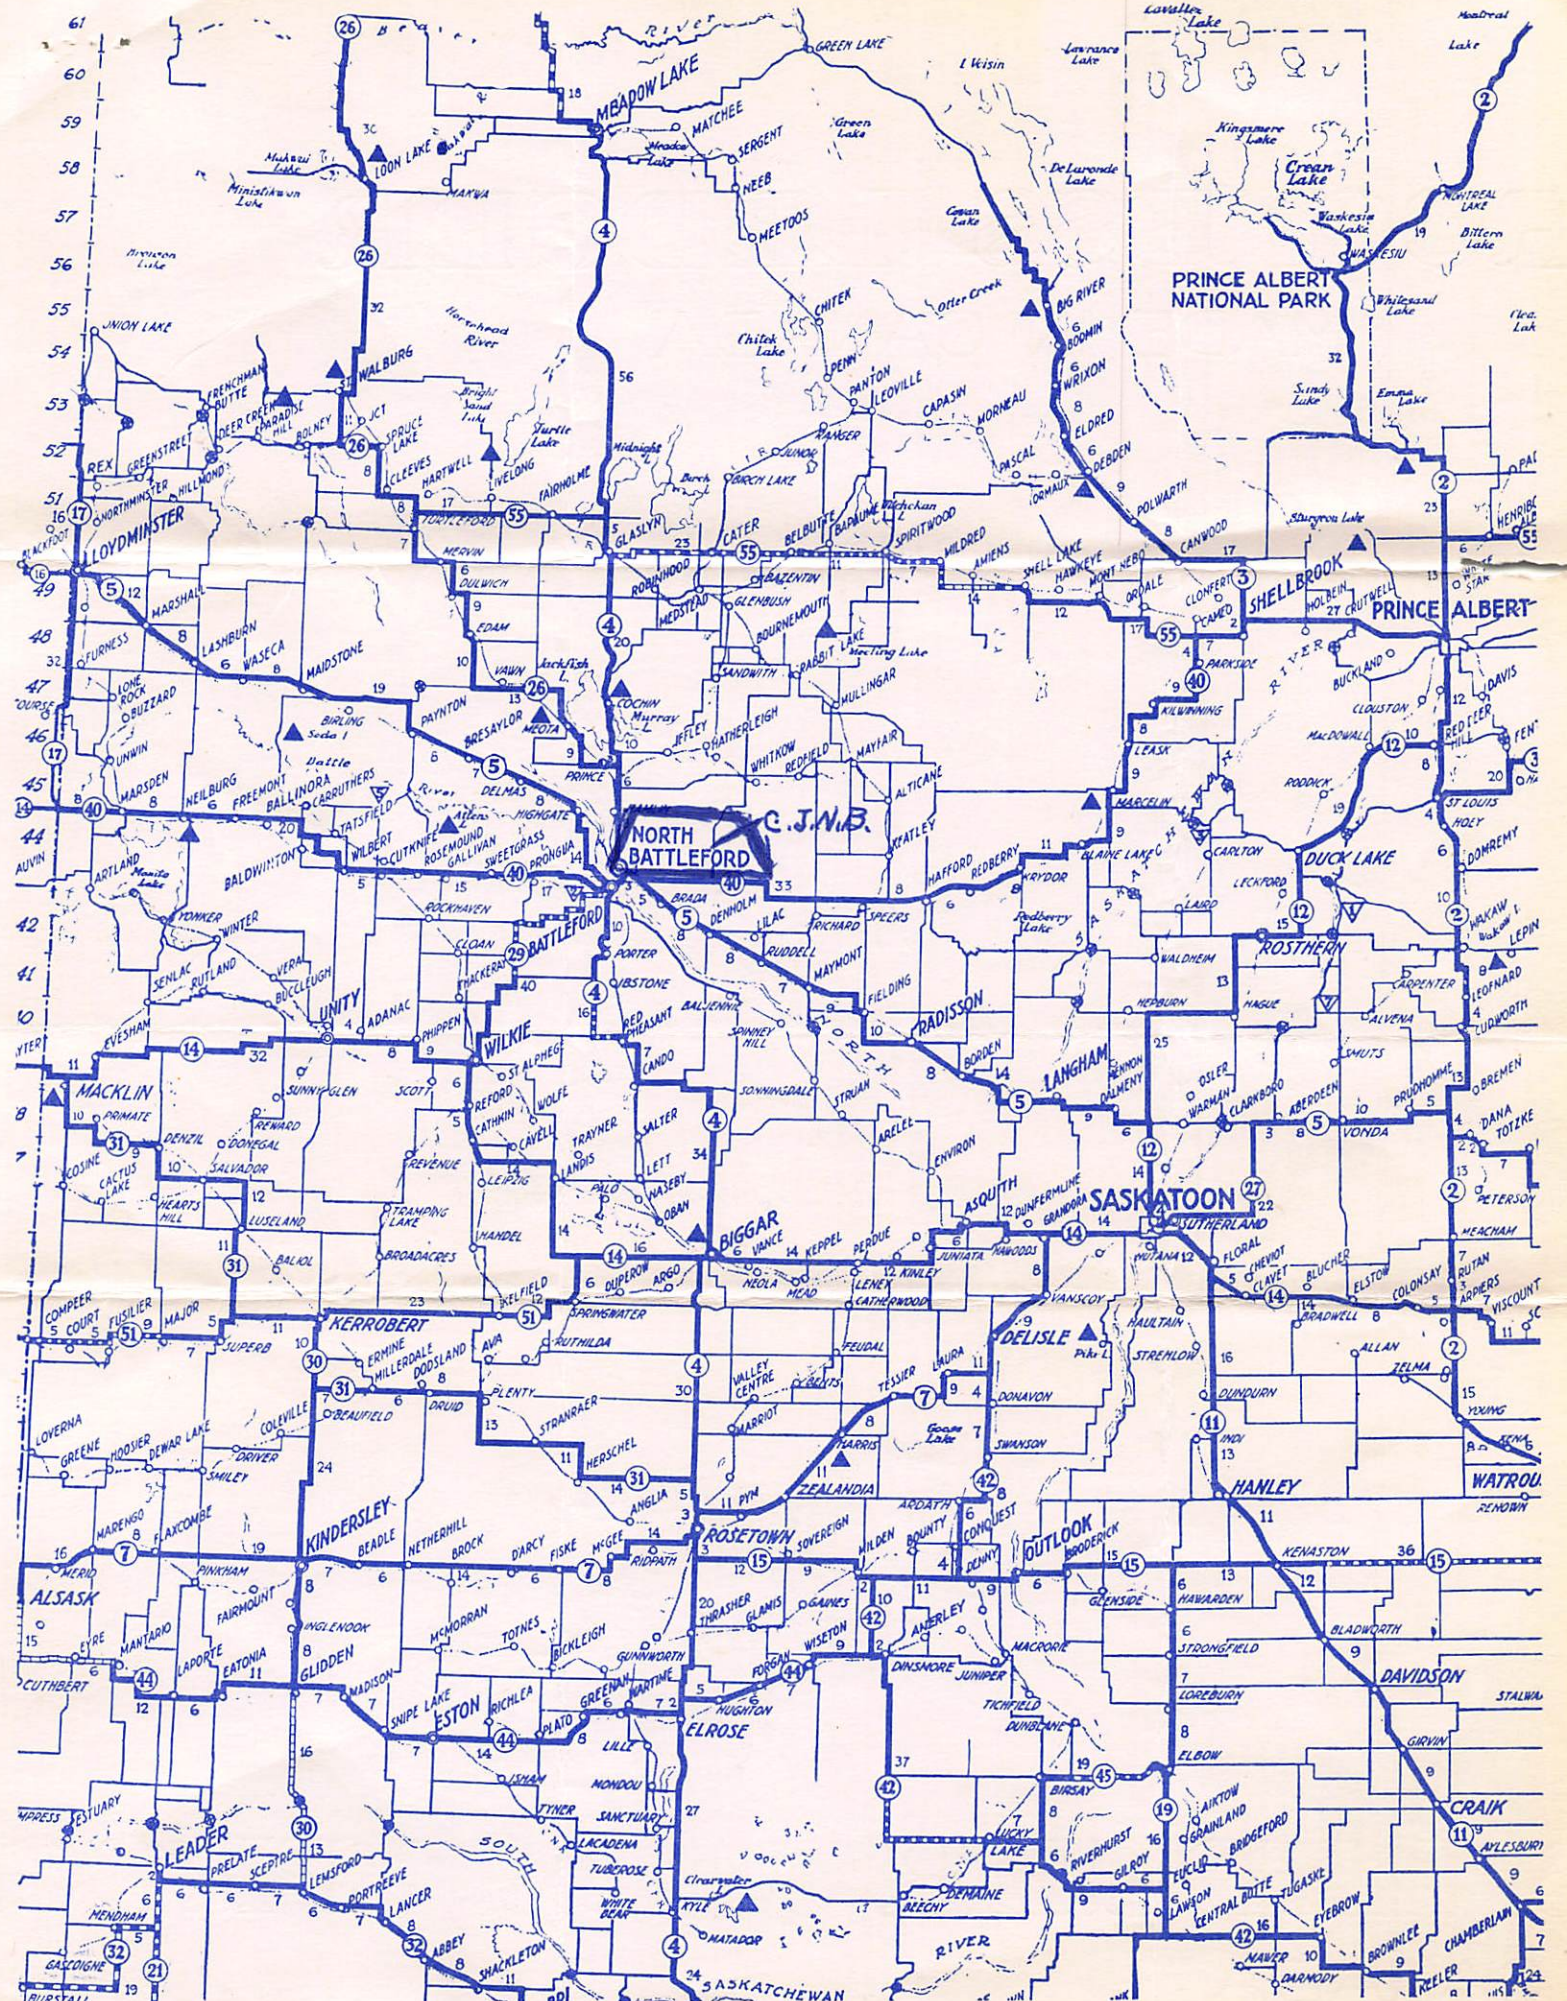

I will tell our listeners about our reception from such a distamt point and personally thank you for your welcome and interesting letter. This response of mine will arrive late but as they say ... "Better late than never." A Happy New Year to you and your family. May 1956 bring ~~to~~ full realization your every wish.

Sincerely, *RS.*
Ron Smith
