Dear Bill:

We were very pleased to receive your DX Report November 19, 1985. Please accept this as confirmation of your reception 11:55 pm - 12:00 pm.

Your report is one of the farthest American reports since our frequency change from 1250 kHz to 650 kHz this past August.

We have enclosed a special key fob for your collection. Good luck with your hobby.

Yours truly,

A handwritten signature in dark ink, appearing to read 'Di', is written below the typed name.
