Dear Mr. Nittler,
Thank you for your letter of Jan
14, 1969. I regret delay in answering
because I was away for the past
two weeks on personal and station
business and this is the first
chance I've had to reply. Checking
our log for Jan 14, 1969 verifies your
reception of our signal. Our
equipment consists of BCI series
Gates Transmitters operating omni-
pattern at 1000 Watts day & 250 Watts
nite. Once again thank you for your
letter and interest.

Good listening
yours truly
Ed. Brynne
Chief Engineer
