Mr. Maurice W. Nittler  
1735 So. Vallejo Street  
Denver 23, Colorado

Dear Mr. Nittler:

Thank you so much for your letter of January 3, 1963, letting us know that you heard us on our frequency check. We broadcast on 1560 kilocycles and operate on a power of 250 watts daytime.

We really appreciate hearing from you boys. We had letters from Canada, New York, Massachusetts, New Jersey, North Carolina, to list a few.

We are still a rather new stations. We only started operating on October 22, 1962. Still like a play toy to us. Only had one breakdown so far. Pretty good!

Any time that you hear us be sure to let us know. We appreciate any suggestions or comments that you might have. Again thanks. Sorry for the delay in verifying your letter, but we had "quite a few" letters.

Yours very truly,

A handwritten signature in blue ink that reads "Wm O. Higgs".
