

Hello Mr. Nittler,

Greetings from Waco! We would like to apologize for the delay in getting back to you. The program you heard that night was indeed our "year in review" for the high school football team we covered this past fall. We had already gone to our night signal at that point, so we were down to 2,500 watts from 10k. The postcard you provided is included.

We enjoyed hearing from you.

Sincerely,

Jeremy J. Beutel
Program Director
1010 KBW
