Dear Bill,

I am pleased to verify your reception of Radio Station KBYP on the morning of October 1, 1966 between the hours of 12:15 A.M. and 12:30 A.M. CST while we were performing a frequency test. Your account of the transmission was very accurate.

I am enclosing one of our rate cards which I have verified your reception on and also a window decal, I hope that these will be satisfactory to you.

I would like to thank you for letting us know of your reception of us, We normally run our frequency tests on the first Saturday morning of each month and as you noticed we have a hard time bucking XEDM in Mexico.....However we have been received as far as Manitoba, Canada--which is not bad for a 250 watter.

Thanks again for letting us hear from you and Thank you for your interest in radio. If I can be of any further service to you, please feel free to call on me.

Sincerely,

Troy D. Johnston
Chief Engineer
KBYP Radio
