Geneva, Nebraska

Dear Maurice,

In response to your letter of July 23, This is to let you know you were right on the beam feller. Your resume of what you heard on July 22 1955 , was exactly what was said beaucause I was the guy who was stretching the vocal on the announcement.

We were at the time checking our killocycles with Commercial Monitoring Co. In Kansas City, so are glad to know we were heard in the "Cornhuskers State" Too. OK on thet table model Emerson radio with built in loop antenna, we have the interference right in our own communityha .

Well thanks very much for letting us know of your find and here's to you and much luck in your searching the "Air Waves".

Yours truly
Coy L. Thompson
