Maurice W. Nittler
Box 94
Geneva, Nebraska

Dear Sir;

I was very pleased to hear of your reception of my frequency check broadcast.

As to verification of your reception, I am satisfied that you did receive me, as your wording of my announcement is almost identical with what I said.

I did go on the air at 12:10 and went off the air at 12:25.

So glad that you received a rain to break your drouth. We have been without a real rain here longer than two months and could surely use some of that rain.

I have received two other DX letters. One from Omaha, and one from Denver.

~~Ex~~ I'M always happy to hear from any listeners and do my best to answer all letters.

Sincerely Yours,

Wilton M. Highfill
