

November 30, 2004

Dear DX'er,

Thank you for your recent reception report. This letter confirms your reception of KHCK on 11/24/04 from \_\_\_\_\_ to 1725 . CSI

KHCK operates 24 hours on 1480 kHz with a directional antenna day and night. The day power is 5KW and the night power is 1.9KW. Two towers make up the day directional array. Four towers comprise the night directional array and are located in SE Dallas. Our studios are located at 7700 Carpenter Freeway in Dallas. Thanks again for listening!

Sincerely,

Patrick Parks  
Engineering Manager  
HBC Stations Dallas  
7700 Carpenter Fwy.
