THE VOICE OF

Bill Nittler
603 W. 1st
McCook, Nebr. 69001

Dear Sir,

I would like to thank you for your letter and to confirm your reception of our test broadcast from 12:50 to 2:37 A.M., May 28, 1973. Other reports were received from Los Alamos, N.M; Chicago, Ill; Yardley, Penn; and as far south as the Mexican boarder. Our transmitter is an old Collins 21-A which I have re-wired. Last night with an output of 5000 watts, I measured 2.3% maximum harmonic distortion at 100% modulation. Our frequency response was excellent. We will be broadcasting daytime in about ten days. Our programming will include gospel music and programs as well as some country/western type music. Thanks again.

Sincerely yours,

William K. Meyer, Chief Engineer.
