Dear Mr. Nittler:

Thank you very much for your report of reception of our station on February 12, 1956. Your description of the program makes it obvious that you received the station.

Our transmitter is 1000 watts, Western Electric, operating into a half wave antenna. We also operate FM on 104.5 megacycles, but conditions would have to be very unusual for you to receive that station.

Yours very truly,

Bob E. Tripp
