

January 3, 2005

Hi Bill,

Thank you for your letter regarding our signal in Belen, NM. You are correct in receiving KJCE 1370am with the examples you site in your letter. We broadcast with a non-directional daytime power of 5000 watts. At night (sunset to sunrise) we drop the power to 500 watts with a directional antenna.

Thanks again for contacting us and hope you have a great new year.

Sincerely,

Ryan Schuh

Program Director
