Dear Mr. Nittler:

We at Radio Station KPAN were very pleased to receive your letter of December 30, stating that you had received KPAN'S A.M. signal on the 29th.

KPAN A.M. is operated on Canadian Clear Channel Frequency 860 khz. from sunrise to sunset. We broadcast with a GATES BC-250-GYI 250 watt transmitter.

KPAN F.M. operates on an assigned frequency of 106.3 MegaHertz. WIH GATES FMIC 1000 watt transmitter. We broadcast from 6:00 a.m. until 12:00 p.m. on F.M..

According to information contained in your letter you were indeed tuned to KPAN A.M.. We appreciate very much hearing from you and if we can ever be of assistance to you please let me know.

Yours Truly

Larry Wornick  
Chief Engineer
