Mr. Nittler,

I apologize for our failure to answer your first letter. Since the latter part of September was the time when we were renovating our facilities, the only explanation I have is that your letter was somehow lost in the scramble.

I have checked our program log and our music lists and find that your logging corresponds with ours.

We are gratified that you were able to hear us, and we appreciate very much your letting us know. Best wishes from us to you, and good luck in your DXing.

Cordially,
