Dear Mr. Nittler:

Many thanks for your postmarked letter of December 12 concerning your monitoring KTEM on the morning of December 9. This will confirm your monitoring of KTEM. A check of our program log indicates that you were truly picking up our station. The key to the confirmation is the Navy spot that ran following our 5:30 a.m. news.

We appreciate your writing this letter as we are always interested in where our signal has been picked up. If you should ever be in Central Texas, please drop in to see us.

Yours very truly,

KTEM RADIO
