Re: KVOP 1090 Signal

Dear Bill:

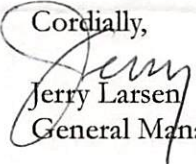

Thanks for listening to KVOP 1090 out of Plainview, TX.

Fun to hear various points where the signal reaches. Our daytime signal with only 5,000 watts has a great deal signal reach. We're clear from north of Amarillo (65+ miles) to south of Lamesa, TX (75 miles) and from Eastern N.M. to 50+ miles east of Plainview.

I'm familiar with you area having lived in Grand Junction where I managed KSTR radio in the mid 1980's. We loved the area around Durango, Ouray, Telluride and of course the Mesa Verde National Park.

Thanks again for listening.

Cordially,

Jerry Larsen
General Manager
