Dear Sir:

In regard to your letter of December 28 1954, most of the D X&s I had at that time were destroyed due to moving of equipment. However your report of last Monday A M is correct. We are a new station, as of 29 Nov 1954, all News and Music. San Angelo, is a fair sized city of some 60,000. We have four radio stations here and one T V station. According to the latest rating we are considered the number one station in this area. Even though we are only 1kw and there is a 5 kw rig here.

In the future I would appreciate hearing from you from time to time. My regular scheduled frequency check comes on the third Monday of each month, between the hours of 4 AM and 6AM.

Sincerely;

Arthur E. Henderson
