AMERICAN BROADCASTING COMPANY
TEXAS STATE NETWORK

FRONTIER BROADCASTING COMPANY * WACO, TEXAS

Mr Maurice W. Nittler
Box 94
Geneva, Nebraska

Dear Sir:

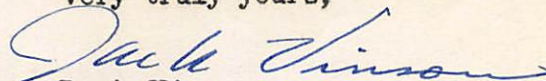

This will confirm your report of reception of our signals according to our time on October 1, 1955.

We appreciate this report and the information you gave us about your equipment. The following information about our Station may be of interest to you.

We are the regional A. B. C. outlet for Central Texas, operating with 1,000 watts power day and night on 1460 Kilocycles. We operate with a directional pattern at night with our heaviest signals in the Northwesterly and Southeasterly directions. Our transmitter is an RCA BTA-1-L, and our studio equipment was custom-built by Collins.

Again we thank you for your letter and hope that we may hear from you again.

Very truly yours,

Jack Vinson
