Texas is a bright, bustling land where the sun shines nearly every day, but winter "Northerns" sometimes drop the temperature from a balmy 88 to an icy 22 in a matter of hours.

Texas is rich in natural resources, friendly progressive Southwesterners and beautiful girls.

Fort Worth and Dallas contain a metropolitan population of 1,418,600 and the twin cities (30 miles apart) are connected by a six-lane turnpike toll road.

Fort Worth is the home of the famed Texas Christian Horned Frog teams and Dallas is the home of Southern Methodist Mustangs. Six Flags Over Texas is between the two cities.

Come down our way and enjoy yourself in this fabulous land of outdoor sport and informal living. Take your next vacation in Texas!
