

Dear Mr. Nittler,

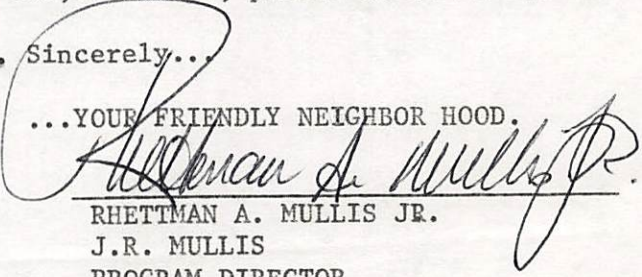

It was good to hear from you. It makes me excited to know that our signal reaches that far. Let me introduce myself; I am Rhettman A. Mullis Jr. , Known as J.R. MULLIS. I program KKVU, so my title is Program Director, News director, Chief Engineer, and least of all Morning Jock.

I was the person you were listening to on January 19th. I read your letter to all of our listeners.

KKVU runs an am station at 5000watts, and an FM station at 3000watts. AM1470, FM105. We play mostly ADULT CONTEMPORARY SECULAR music, and a heavier rock;(contemporary rock), at night. We will be going to 24-hour formats soon, and by this summer, we will be broadcasting at 100KILOWATTS in our FM side. AM will be totally country, and the FM will be top40.

Thanks for the letter, and for the uplifting. If you ever listen to us on a permanent basis, after we go 100,000 watts, please write me and let us know your listening. Thanks again. Sincerely...

...YOUR FRIENDLY NEIGHBOR HOOD.

RHETTMAN A. MULLIS JR.
