

I am very pleased to report reception of KLZX by me in Mancos tonight, January 3, 1986 on 960 Khz. The following is what I was able to log on your signal:

8:02 P.M. MST ID "It's 8:02 on KLZX Provo, 960" music continued with "In The Year 2525"

8:22 Ad for Morris Motors 7.9% financing

9:20 Announcement for an event to be held at the Rich Athletic Club for \$3 per person.

Announcement, "Classic Hits 960. We're gonna be your station for 1986. 1985 was a bit on the short side for us. In *86 we are determined to get to know you a little bit better with dances and live broadcasts throughout the valley plus we'll brew up some great contests that'll bring back to mind feeling you didn't know were still in there and how about special weekends. First up, the Killer B's, the Beattles and Beach Boys!" So remember, it's Classic Hits for *86 on 960 KLZX." "Slip Sliding Away" by Paul Simon played.

There was a signal drop during these three announcements though
