Dear Bill,

Thanks for your letter concerning your reception of our radio station. It is exciting and amazing that you were able to pick up our 1000 watt signal all the way out there. Especially during the day, when the sun's ultra-violet rays usually prohibit that kind of coverage. We sometimes have trouble covering the Greater Salt Lake City Metropolitan area.

Anyway, this is to verify that the programming you mentioned in your letter was in fact, transmitted by our radio station. Hope you enjoyed it. Thanks again for your letter.

Sincerely,

Pat Gray
