Dear Mr. Nittler:

Just a brief note to confirm that you were indeed receiving KNAK at the time indicated in your letter on November 16, 1979. On November 13th, we installed equipment which would effectively boost our signal by maximizing our modulation level. Since that time we have received reports from other areas in Utah indicating that our signal had improved.

Thanks for your interest.

Sincerely,

Robert R. Harlan
Station Manager
