

Bill Nittler —

This confirms your reception of

KOAL

Price, Utah

on 750 KHz

7KW Directional (null 95°) or 10KW Non-Directional?
Transmitter: Continental 316F (10 KW) Harris MW-1 (1KW)

Date 11/3/86 Time ~5:40 PM

Thanks Eric J. Albrecht ch. Eng.

We went on the air
10/31/86 - don't have
cards printed yet

I can't find the log, but
I think this was the day
we were on Non-D until
5:45 - we were supposed
to go to directional
at 5:15

I know where Mancos
is - I drive thru all
the time - I live in
New Mexico & just work
here as needed
